DETAILED ACTION

Rejections Repeated

The double patent rejection over copending Application No. 10/918268 in view of Liu et al. (US Patent No. 5,968,669) is repeated for reasons previously made of record in the office action mailed October 6, 2010, pages 2, paragraph #5.

The 35 U.S.C. §103 rejection of claims 1-15, 18, 20 and 21 as over Clemens et al. (US Patent Application Publication No. 2002/0114940) in view of Liu et al. (US Patent No. 5,968,669) is repeated for reasons previously made of record in the office action mailed October 6, 2010, pages 2, paragraph #6.

Response to Arguments

Applicant's arguments in the response filed March 7, 2011 regarding the 35 U.S.C. §103 rejection over Clemens in view of Liu of record have been carefully considered but are deemed unpersuasive.

Applicant argues that neither the "topcoat" of Clemens does not teach a cured reaction product/mixture of a polymeric binder.

Clemens discloses that the topcoat, as well as the basecoat comprises a cured resin, see page 8, paragraph [0169]. Furthermore, per the applicant's submitted reference, "[c]uring of polymers takes place... through the interaction of reactive oligomer groups upon exposure to heat." See Curing of Polymers Encyclopedia Article. Clemens discloses the topcoat is applied and reacted with heat (i.e., curing), see page 3, paragraph [0054].

Applicant argues that the expandable graphite particles are in the basecoat not the top coat.

Clemens discloses in Paragraph [0029] that the topcoat can further comprise a flame retardant. Then paragraph [0264] discloses the examples of usable flame retardants, such as expandable graphite, of the invention of Clemens. Therefore, Clemens discloses that the topcoat comprises expandable graphite.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
